

## Who We Are

Samuel Coding & Labeling has been providing ink jet printing and labelling solutions since 1990. We are uniquely suited to provide you with solutions that are tailor made to suit your facilities. With installations across North America we can provide unparalleled industry experience in integrated printing and labelling systems ranging from basic printing and labelling devices to fully automated, integrated ink jet printing, labelling, and scanning solutions. Custom applications are our specialty. Our commitment is to offer you the best service and solutions, including rugged custom equipment and specialized software to suit your needs and the demanding conditions in any production environment.
